Join us to explore the ways in which the humanities--both as a field of study and as an area of creative expression-- provides ways of thinking that strengthen our civic engagement. The hope is to consider the deep value of humanities for human life in a way that does not

subordinate it to politics but also does not detach it from the life of political communities. We will consider the value of humanistic study both as a timeless pursuit and in relation to the pressing challenges of civic engagement that confront us now. This event is co-sponsored by: Penn's Year of Civic Engagement, Beatrice Institute, the Genealogies of Modernity Project, and Wolf Humanities.
